

AN ENDLESS TANGLE.

The New Survey Will Breed Confusion and Litigation.

Is the City Engineer Wholly Incompetent to fill the office which he holds?

Judge Kane's decision in the Duncan-Spafford case will lead to endless confusion and litigation.

The confession of Engineer Doremus that he had in some instances made the new survey without conforming to the old survey is a confession that the new survey is in violation of the law, and as far as it is not in harmony with the original survey.

This is a very serious matter as it opens everything that has been done and opens the way for disputes over lot lines which may lead to the discovery that many of the business blocks erected during the last two years are encroaching on other ground than that upon which the owner intended to build.

How far the engineer departed from the original survey, will not be known until other engineers have done their work. The fact that the incorrectness of his lines have been proven in a single case does not prove that the entire system is at fault, but it is an admission that he had in a single instance departed from the original survey and indicates that he was ignorant of the very rudiments that every surveyor is supposed to be familiar with before he is allowed to take to survey a town lot, much less to hold the responsible position of the official surveyor of the city. It is interesting to know whether Mr. Doremus thought that his official character gave any legal sanction to his work unless he conformed to the original survey.

If he did, he is wholly unfit to fill the office to which he was elected, and where he made surveys in an official character the city will be liable in damages to persons aggrieved.

The Duncan-Spafford decision knocks the new survey sky-high, and the city council, after spending thousands of dollars of the people's money in what it was pleased to call a public enterprise, will not only have thrown the money away but entailed on the city lines and monuments that will lead to endless confusion, lawsuits and in some cases great inconvenience as well as heavy pecuniary loss to the owners of buildings.

DAIRYMEN'S ASSOCIATION.

First Regular Meeting Held in This City Yesterday.

The Dairymen's Association of Salt Lake City, held its first regular meeting yesterday.

This association was organized one week ago, with H. E. Woodworth, president; G. Ward, of Clover Dairy company, secretary, and H. J. Faust, jr., of Northern Fine Stock and Dairy company, treasurer.

Seventeen dairymen signed the articles of constitution and by-laws, and it was stated that many more will join at the next meeting.

The objects of the association, as specified in the constitution, are to:

First—To insure the sale of only pure and healthy milk.

Second—To establish a uniform price for the same.

Third—To prevent the sale both by any member of the association or by any other person of adulterated, unwholesome or skimmed milk under any label.

Fourth—To secure the enforcement of laws in the enforcement of the city ordinances and territorial statutes regulating the sale of the same.

The association will not at present establish a uniform price for milk, but will endeavor to do so in the near future.

If carried on in the spirit with which it was organized the association cannot fail to benefit all milk consumers by insuring them a pure article at a fair and reasonable price.

The next meeting will be held in the Fourth ward assembly room on Nov. 2, at 1 p.m.
